comfort and a
treatment with
the best results

Picture: Dama 4

Namrol multifunctional chairs have been designed for all types of beauty treatments, Dermatology, facials, body treatments, hair removal, make-up, tattoos and even massage.

Ideal for any treatment

Dama

Design, Reliability and Comfort

Treatment beds are an essential part of a practice and should be the focal point of every clinic.

More than just a necessary piece of equipment, Dama represents an investment in quality, technology, and comfort to your patients. It's the opportunity for your clinic to enhance efficiency and expand treatment solutions, differentiating your practice and clearing the way for profit growth.

Design: The design features are augmented by a highly original color concept. This means that you can explore new avenues in interior design and harmoniously integrate the Dama treatment chair into your clinic. So let yourself be inspired and select your combination.

Reliability: 100% made in Barcelona - Spain. The electronics with SMT technology and the base, seat, back support and leg support are backed up by low tension, silent and reliable equipment.

Comfort: The non-slip upholstery, soft padding and ergonomic lines have been designed to provide maximum comfort to the patient.

Sena

An attractive design with an excellent result

With Dama base the Sena multi-treatment chair offers a new dimension to work: reliability and efficiency at an affordable price.

Easy to operate, safe and economic functioning. This multi-treatment couch allows an easy, versatile work pattern.

Design, comfort and reliability are the main features of this SENA multi-treatment couch. The electronics with SMT (Surface Mounting Technology) and the base, seat, back support and leg support are backed up by low tension, silent and reliable equipment.

The non-slip upholstery, soft padding and ergonomic lines have been designed to provide maximum comfort to the patient.

Ideal cover for intensive use

High quality skai® material with fine calf leather grain and subdued matte-gloss-effect. Disinfectant resistant. Fulfills medical standard DIN EN ISO 10993-5+10. Long-lasting. Easy to clean. Tear resistant. Blood- and urine resistant.

High Performance and Control

Low-noise durable and powerful actuators, with high speed/ high performance and mechanical endstop for first failure safety. This makes it the right choice for the future.

SENOSAN

High quality material made of ABS + PMMA.

White coextruded multi-layer composite sheet with a brilliant surface of sanitary acrylic. High chemical resistance, high impact strength, long durability and off course recyclable.

STABILUS

Variable Positioning

A special piston / valve system, which separates the two pressure chambers in the spring, allows effortless movement and locking.

Details make the difference

Passion for Quality Made in Spain.

It's just a small thing that most people wouldn't notice, but it's a detail worth noting in the quest for outstanding quality and durability.

Cushioned armrests synchronised with the back support, both retractable independently.

Sturdy and comfortable table position to offer a wide range of treatments.

Minimum height from the floor and removable armrests, ensure ease of access for the patient.

Ergonomics and unlimited comfort

The adjustable chair movements, ensure ergonomic working in any position of treatment.

What's your ideal model?

Chair Weight	78 Kg.	80 Kg.	82 Kg.	82 Kg.	82 Kg.

Maximum height of 95 cm allows you to work standing if desired.

Patented anti tip system helps to prevent movement when the patient enters or exits the chair.

Powered base, back and tilt for effortless positioning.

Small base footprint which takes up less space in treatment room.

Highlights

Extendible Head Support

Head support is adjustable both in angle and height, keeping the head steady and a correct position.

Hands free operation

The foot switch is your multifunctional control element for all chair functions. Include home position and two memory positions that you customize to your needs.

Extendible Leg Support

Split extendible legrest, easy to position allows quick and easy adjustments.

Syncro

The legrest raises and lowers in accordance with the backrest. This synchronised movement means the patient is comfortable while the backrest is being adjusted. The Trendelenburg is an asset for safety and comfort.

Optional Accessories

Massage Headrest

Massage cushion is easily swapped with the standard headrest in just a few seconds. The 3D adjustment reaches a better and more comfortable position.

Thermo heating system

Chair heating system with 3 temperature settings. The chair heating is especially pleasant for the client, and also energy saving, because the temperature in the salon can be set a few degrees lower. (Option not valid for Sena)

Paper Roll Holder

Placed at the rear part of the backrest with quick swap of paper rolls. (max. roll length 60 cm, Ø 12,5 cm)

Manicure Bowl

Manicure bowl with ergonomic support.

Optional Accessories

Protection screen

Protection screen can be attached to either side of the chair.

Magnifying lamp support

Chair side mount magnifying lamp support. Synchronized raising and lowering movement with the chair.

Scialytic lamp support

Chair side mount scialytic lamp support. Synchronized raising and lowering movement with the chair.

Casters Set

Locking casters provide mobility without sacrificing valuable floor space. Casters add 3 cm. to the minimum seat height.

Protective Cover

Keeps your chair looking clean and new, protecting the upholstery from the rigors of frequent cleaning.

Hand control

The Dama handset has an ergonomic design and size and features large buttons all blending in to a user-friendly handset. Hook for placement on the bed.

Wireless Foot Control

Enjoy the freedom of locating the foot control anywhere in the room. Remove cords and eliminate obstacles.

New generation seats, a fusion of contemporary design with attention to essential ergonomic features. A properly supported back for the professional whilst carrying out his duties.

Stools

Ergonomic for ideal posture.

It's just a small thing that most people wouldn't notice, but it's a detail worth noting in the quest for outstanding quality and durability.

MONZA

Anatomic stool with half moon back rest, upholstered in SKAY, seamless easy to clean with piston controlled height regulation. Soft, double castors mounted on chrome finish, with 5 points of support. Colors can be matched to the range of colors for the treatment beds

COSMOS

Anatomic stool with backrest, upholstered in SKAY, seamless easy to clean with piston controlled height regulation. Soft double wheels mounted on a chrome finish with 5 support points. Colors can be matched to the range of colors for the treatment beds.

CORSA

Ergonomically designed stool to maintain proper posture, upholstered in SKAY seamless, easy to clean with piston controlled height regulation. Soft double wheels mounted on a chrome finish with 5 support points. Colors can be matched to the range of colors for the treatment beds.

CORSA - V

Very healthy, incredibly comfortable "Saddle seat" with backrest. It is possible to adjust the height of the stool through gas spring.

CORSA - L

Very healthy, incredibly comfortable "Saddle seat" with backrest. It is possible to adjust the height of the stool through gas spring.

MONZA - T

It is possible to adjust the height of the stool through gas spring.

Exclusive personality

UPHOLSTERY

Our senses enable us to appreciate quality and aesthetics. Our eyes register every nuanced colour hue. Our hands explore surfaces and textures.

It is this uncompromising perfection which turns Namrol upholstery into an experience for all the senses.
